### ***Ponuda goveda na stočnim pijacama prosečna, ali je slabo interesovanje kupaca***

Na stočnoj pijaci u Pančevu su reporteri STIPS-a evidentirali prosečnu ponudu goveda kako Simentalske tako i Holštajn-Frizijske rase, ali je kao i prethodnih nedelja prodaja bila slaba. U klanicama je nastavljen trend dobre ponude i otkupa junadi SM rase, dok je broj otkupljenih grla ostalih kategorija goveda bio slab.

U Loznici je kako na pijaci žive stoke tako i u klanicama evidentirana jako dobra ponuda tovne junadi preko 480 kg telesne mase uz slab otkup i blagi pad cene koja se protekle sedmice kreala od 100 do 105 dinara po kilogramu.

U Požarevcu je zabeležena prosečna ponuda, ali je zbog slabije potražnje posebno teladi došlo do porasta cene.

Na pijaci žive stoke u Obrenovcu po pitanju ponude i tražnje

goveda nisu evidentirane značajnije promene. I dalje se prodavci žale na slabu prodaju goveda, posebno teladi i junadi. Cene su zadržale prošlonedeljni nivo.

Prema izveštajima kolega iz Kragujevca, Kraljeva, Zrenjanina, Vranja i ostalih mesta na stočnim pijacama je situacija vrlo slična prošlonedeljnoj kako u pogledu ponude i tražnje tako i u pogledu cena.

Kada smo kod cena telad su se prodavala u intervalu od 160 do 230 din/kg ali je dmoninirao iznos od 200 dinara.

Junad su se mogla po najnižoj ceni nabaviti u Somboru po ceni od 105 din/kg, dok je najviša protekle nedelje zabeležena u Požarevcu čak 150 din/kg.

U kategoriji krava za klanje cena je u zavisnosti od rase i kvaliteta grla varirala od 70 do 110 din/kg ali su se najčešće prodavale za 75 din/kg.

## Potražnja prasadi ne jenjava zbog predstojećih praznika, a po obimu prodaje ne zaostaju ni tovljenici

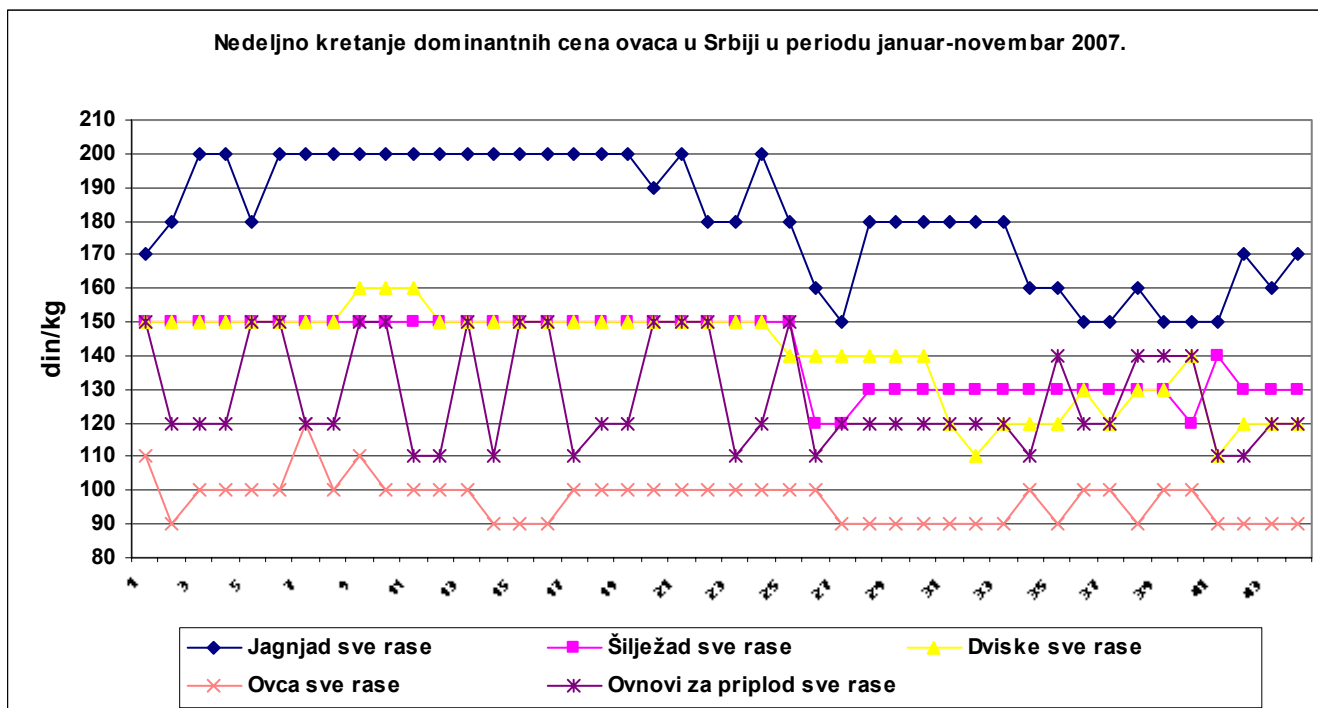

Na pijaci žive stoke u Loznici je ponuda prasića protekle sedmice bila jako dobra, a i potražnja takođe. Cene su se kretale u zavisnosti od telesne mase i kvaliteta od 75 do 90 din/kg. Ponuda tovljenika je bila na zavidnom nivou a cena je varirala, pa su se grla preko 130 kg prodavala 75 din/kg, dok je za kategoriju telesne mase od 80 do 130 kg trebalo izdvojiti 85 din/kg.

U Pančevu je evidentirana slaba prodaja svinja i kupovala su se pretežno samo prasadi, pa je pijaca brzo završila sa radom. U klanicama je zbog veoma dobre ponude zabeležen pad cena tovnih svinja II klase telesne mase 80 do 130 kg kao i grla preko 120 kg.

Na stočnoj pijaci u Obrenovcu-Beogradu je nastavljen trend dobre ponude i tražnje svih kategorija svinja, a cene su ostale nepromenjene. Najbolje su se prodavala prasadi po ceni od 90 din/kg dok se cena tovljenika u zavisnosti od telene mase i kvaliteta kretala od 80 do 90 din/kg.

U Požarevcu je zbog slabije ponude i tražnje došlo do povećanja cena nekih kategorija svinja.

Na ostalim pijacama žive stoke ponuda i tražnja kao i cene svinja su ostale nepromenjene u poređenju sa predhodnom sedmicom.

## Skuplja jagnjad u Kraljevu, Pirotu i Pančevu

Treće nedelje decembra na tržištu svih kategorija ovaca ne beležimo promene dominantnih cena.

Dominantna cena jagnjadi od 170 din/kg je takođe nepromenjena ali na pijacama u Kraljevu, Pirotu i Pančevu beležimo rast za 60, 40 i 30 din/kg.

Kao i proteklih nedelja ovce su najčešće prodavane za 90, dviske za 130, šilježad za 120 i ovnovi za priplod od 100 do 120 din/kg.

Napromenjene cene beležimo i kod jaradi koja su najčešće prodavana za 140 dok su koze prodavane za 80 din/kg

### Agroinfo vesti

Poljoprivreda je u ovoj godini, zbog nepovoljnih vremenskih prilika, pretrpela štetu od 15 do 30 odsto po pojedinim kulturama. Najnižu proizvodnju u poslednjih dvadeset godina zabeležila je pšenica, rečeno je danas na Odboru za poljoprivredu u Privrednoj komori Beograda (PKB). Na skupu je ocenjeno da je na taj način smanjena ukupna baza za stočnu proizvodnju, stočni fond je ugrožen, proizvodnja mleka opada, tako da će na proleće ponuda stočarskih proizvoda biti mala, a cene visoke.

Evropska unija ukida carine na uvoz većine žitarica zbog nedovoljnih količina i rasta cena na tržištu. Uvozne carine za sve žitarice - sem ovasa, heljde i prosa - prestaju da važe do kraja tekuće marketinške godine, 30. juna 2008. Žetva je u članicama Unije dve godine zaredom bila loša i cene su odskočile na rekordne nivoe, što je izazvalo proteste potrošača zbog poskupljenja osnovnih prehrambenih proizvoda, kao što su hleb i testenine.

Cene soje na terminskom tržištu u Čikagu polovinom decembra odskočile su na najvišu vrednost za poslednje 34 godine, pod uticajem špekulacija da će iduće godine rastuća globalna tražnja dovesti do većeg smanjenja zaliha uljarica nego što je to prognoziralo američko ministarstvo poljoprivrede. Samo u poslednjih godinu dana cene soje povećane su za 68 odsto, pošto su američki farmeri ovog proleća sojom zasejali najmanje površine za 12 godina, i preorjentisali se na kukuruz pod kojim su sada najviše površine od 1944.
