### ***Dobra ponuda karfiola, kornišona, krompira, crnog luka, paprike i paradajza***

Ove nedelje na zelenim pijacama u Srbiji i pored bolje ponude povećane su cene krastavca kornišona (30-60 din/kg), paprike babure (20-60 din/kg), paprike šilje (25-50 din/kg), paprike crvene (20-50 din/kg), i paradajza (20-40 din/kg) u najvećem broju ispitivanih gradova.

Cena kupusa povećana u Nišu, Piritu, Smederavu, Kikindi i Sremskoj Mitrovici.

Slaba ponuda belog luka i velika razlika u ceni od 50 din/kg u Kikindi, Subotici i Zrenjaninu do 200 din/kg u Vranju. Slaba ponuda je i cvekle, paškanata, rotkvice i zelene salate.

### ***Domaće jabuke potiskuju uvozne***

Ove nedelje na zelenim pijacama je dobra ponuda jabuke, kruške viljamovke, breskve, nektarine, šljive i grožđa.

Ponuda breskve je i dalje dobra a cena je nepromenjena u odnosu na prošlu nedelju . Nektarine ima dovoljno na zelenim pijacama a cene stagniraju što se može reći i za šljivu.

Što se tiče grožđa ponuda kardinala je lošija a hamburga sve bolja sa nižom cenom u odnosu na prošli period . Cene belog grožđa su takođe nešto niže zbog veće ponude.

Domaća jabuka je potisnula uvozne i preplavila naše pijace. Naročito je dobra ponuda sorti ajdared, nešto slabija glostera, ružičastog i zlatnog

delišesa, greni smita i jonagolda. U zavisnosti od sorte, kvaliteta i grada cene variraju i kreću se od 20-60 din/kg.

Ponuda kruške je dobra a cene se nisu znatno menjale. Cena viljamovke je dosta neujednačena tako da je u Beogradu na Kalenić pijaci 100 din/kg, Zaječaru 70, Loznici i Novom Sadu 60, Subotici, Beogradu na Zelenom vencu, Čačku i Kraljevu 50 i Smederevu, Kikindi i Somboru 40 din/kg.

Kvantaška pijaca u Beogradu je izuzetno dobro snabdevena posebno jabukom, kruškom, grožđem, breskvom i šljivom. Cene su na nivou prošlonedeljnih, jedino je cena šljive u blogom portastu. Dosta lošija ponuda voća je na kvantaškim pijacama u Kraljevu, Nišu, Novom Sadu i Subotici.

## Bolja ponuda povrća za zimnicu na kvantašima

U odnosu na predhodnu nedelju smanjena je cena karfiola, krastavca salatnog, (Beograd, 12 i 15 din/kg i Niš 8 i 15 din), kornišona, crvenog krompira, belog i crnog luka (Niš).

Dobra ponuda paprike ali i povećanje cena: paprika babura (20-30 din/kg), paprika šilja (22-30 din), paprika crvena (22-30 din/kg).

Slaba ponuda brokola, cvekle, blitve boranije, kelja, rotkvice, šampinjona, spanaća i zelene salate.

Najniže cene karfiola, krastavca kornišona, paprike šilje i paprike crvene su na kvantaškoj pijaci u Nišu, luka belog u Subotici, krompira belog i crvenog u Kraljevu i Novom Sadu, paprike babure i paradajza u Novom Sadu, krastavca salatnog i kupusa u Kraljevu, luka crnog u Kraljevu i Subotici.

Na kvantaškoj pijaci u Beogradu krompir crveni, paprika crvena i paprika šilja najskuplje u odnosu na ostale posmatrane gradove. Krastavac kornišon i patlidžan najskuplji na kvantaškoj pijaci u Subotici, crni i beli luk na kvantaškoj pijaci u Nišu, a paradajz na kvantaškoj pijaci u Kraljevu.
